

Topic	Lecture	Resource	Page
Why Complex Analysis?			1
Representation of Complex Numbers			1
The Algebra of Complex Numbers			1
Addition of Complex Numbers			1
Multiplication of Complex Numbers			2
The Geometry of Complex Numbers-I			2
The Geometry of Complex Numbers-II			2
Complex Conjugates			3
Exponential Form-I			3
Exponential Form-II			4
Product and Powers in Exponential Form			4
Roots of Complex Numbers-I			5
Roots of Complex Numbers-II			6
Regions in Complex Plane-I			6
Regions in Complex Plane -II			7
Regions in Complex Plane-III			7
Complex Functions-I			8
Complex Functions-II			8
Mappings			9
Mappings: Linear Transformation-I			10
Mappings: Linear Transformation-II			10
Geometry of Mappings-I			11
Geometry of Mappings-II			12
Geometry of Mappings-III			12
Assignment No. 1			
Limits-I			13
Limits-II			14
Limits-III			14

Theorems on Limits-I	15
Theorems on Limits-II	16
Theorems on Limits-III	16
Continuity of Complex Functions	17
Consequences of Continuity	18
The Reciprocal Transformation	18
Derivative-I	19
Derivative-II	19
Derivative-III	20
The Cauchy–Riemann Equations-I	21
The Cauchy–Riemann Equations-II	21
The Cauchy–Riemann Equations-III	22
The Cauchy-Riemann Equation in Polar Coordinates	22

Midterm Exam

Analytic Functions-I	23
Analytic Functions-II	23
Analytic Functions-III	24
Analytic Functions-IV	25
Harmonic Function-I	25
Harmonic Function-II	26
Harmonic Function-III	26
Harmonic Function-IV	27
Sequences-I	28
Sequences-II	28
Sequences-III	28
Series-I	29
Series-II	29
Series-III	29

Geometric Series	29
Ratio Test	29
Root Test-I	29
Root Test-II	29
Power Series Functions-I	30
Power Series Functions-II	30
Power Series Functions-III	30
Power Series Functions Term by Term Differentiation_I	30
Power Series Functions Term by Term Differentiation_II	30
Power Series Functions Term by Term Differentiation_III	30
Complex Exponential Functions_I	31
Complex Exponential Functions_II	31
Complex Exponential Functions_III	31
Complex Logarithm-I	31
Complex Logarithm-II	31

Assignment No. 2

Complex Logarithm-III	32
Complex Logarithm-IV	32
Complex Logarithm-V	32
Complex Exponents-I	32
Complex Exponents-II	32
Complex Exponents-III	32
Trigonometric Functions-I	33
Trigonometric Functions-II	33
Trigonometric Functions-III	33
Trigonometric Functions-IV	33
Trigonometric Functions-V	33
Hyperbolic Functions	34
Inverse Trigonometric Functions- I	34
Inverse Trigonometric Functions- II	34
Inverse Trigonometric Functions- III	34
Contors- I	35
Contors- II	35

Complex Integrals- I	36
Complex Integrals- II	36
Complex Integrals- III	36
Contour Integrals- I	37
Contour Integrals- II	37
Contour Integrals- III	37
Contour Integrals- IV	37
Properties of Contour Integrals	38
Inequalities involving Contour Integrals	38
The Cauchy Goursat Theorem-I	39
The Cauchy-Goursat Theorem-II	39
The Cauchy-Goursat Theorem-III	39
Generalization of The Cauchy-Goursat Theorem	39
Fundamental Theorem of Integration	39
Cauchy Integral Formula_I	40
Cauchy Integral Formula-II	40
Cauchy Integral Formula For Derivatives-I	40
Cauchy Integral Formula For Derivatives-II	40
Maximum Modulus Principle	40
Cauchy's Inequality	40
Introduction to Differential Geometry	41
Tangent Space	41
Vector Fields	42
Directional Derivatives-I	43
Directional Derivatives-II	43
Curves-I	44
Curves-II	44
Frenet Approximation	45
Geometrical Properties of Curves	45
Arc Length Reparameterization	45
Vector Fields on Curves	45
Curvature	45
Frenet Serret Frame	45
Frenet Serret Formula	45
